Section 2 - Contact Information

Important Instructions - Please Read

Contact information must be provided for each of the following positions as indicated below:

1. Principal Executive Officer, Chief Elected Official or other qualified individual (per GP-0-08-002 Part VI.J).
2. Duly Authorized Representative (Information for this contact must only be submitted if a Duly Authorized Representative is signing this form)
3. The Local Stormwater Public Contact (required per GP-0-08-002 Part VII.A.2.c & Part VIII.A.2.c).
4. The Stormwater Management Program (SWMP) Coordinator (Individual responsible for coordination/implementation of SWMP).
5. Report Preparer (Consultants may provide company name in the space provided).

A separate sheet must be submitted for each position listed above unless more than one position is filled by the same individual. If one individual fills multiple roles, provide the contact information once and check all positions that apply to that individual.

If a new Duly Authorized Representative is signing this report, their contact information must be provided and a signature authorization form, signed by the Principal Executive Officer or Chief Elected Official must be attached.

For each contact, select all that apply:

- ☒ Principal Executive Officer/Chief Elected Official
- ☐ Duly Authorized Representative
- ☐ Local Stormwater Public Contact
- ☐ Stormwater Management Program (SWMP) Coordinator
- ☐ Report Preparer

4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The goals of the Public Education and Outreach are to continue to provide public presentations to local community groups, to continue the Watershed Education Program to educate school children, to update educational materials in print and on websites, and to maintain educational kiosks with information on stormwater.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The Watershed Education Program continued its efforts and reached approximately 1800 students. An additional 30 students were reached at a planting event. The educational kiosks were maintained in 2015. The Watershed Council updated their website with more information on stormwater and water quality. A water quality flyer was created and sent to residents through their water bills. Numerous public presentations were held, including a large event on the blue green algae bloom.

C. How many times was this observation measured or evaluated in this reporting period?

		1	0
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Educational materials are being updated and will be available in 2016. The City's IPM strategy is being promoted to City residents. The Watershed Council's website will be enhanced with more MS4 related material. Presentations will be given to the public. The school education program will continue.

7. Evaluating Progress Toward Measurable Goals MCM 2

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

One goal is to maintain public involvement through various public meetings and stakeholder groups. Additional goals include the establishment of a Local Stormwater Public Contact and Officer, updating websites, continuing the storm drain marking program, and increase public participation through community restoration and clean up events.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The public stayed involved in stormwater management through contacting the watershed program and discussions at public meetings and presentations. Clean up and planting events were held at Lagoon Park. In October 2015, a large event was held to discuss the blue green algae event, where significant public comment was provided.

C. How many times was this observation measured or evaluated in this reporting period?

			8
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

☒ Yes ☐ No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

☒ Yes ☐ No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

Public clean up events are planned for the upcoming year. Stakeholders will be encouraged to discuss stormwater at City Council and City Environmental Committee meetings, and will participate in the SWPP development. Residents will be encouraged to reduce fertilizer and pesticide usage on their lawns through programs. Community Hotlines will be maintained. Partnerships with the Watershed Council and Association to educate the public will also be enhanced.

---	---	---	---	---	--	--	--	--

12. Evaluating Progress Toward Measurable Goals MCM 3

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The initial goal is to begin to update the existing outfall and sewershed maps. Another goal is to continue to fund and implement the comprehensive onsite wastewater inspection program and water quality monitoring program throughout the Canandaigua Lake watershed to protect source water. The IDDE law is being researched and a revised goal of adoption is set for 2016.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The outfall maps have been georeferenced and the update to outfall locations has begun. The City continues to fund the onsite wastewater treatment system inspection program throughout the watershed. A draft model onsite wastewater treatment system law was developed. Monitoring continues from April to November in the lake and stormwater visual monitoring continues along Sucker Brook. The IDDE is being researched and discussions have been held.

C. How many times was this observation measured or evaluated in this reporting period?

		1	0
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☐ Yes ☒ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

During the next reporting period, outfalls and the associated sewersheds will continue to be mapped, with a focus on areas outside of the lake's watershed. In addition, the City will finish reviewing its illicit discharge laws and will work towards a city-wide ordinance that is compliant with the State. Finally, the Code Officer, Watershed Manager and Watershed Inspector will continue dry weather inspections of outfalls and the onsite wastewater treatment systems inspections.

Minimum Control Measure 4. Construction Site Stormwater Runoff Control

The information in this section is being reported (check one):

- ☒ On behalf of an individual MS4
☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. How many construction projects have been authorized for disturbances of one acre or more during this reporting period?

		1
--	--	---

2. How many construction projects disturbing at least one acre were active in your jurisdiction during this reporting period?

		4
--	--	---

3. What percent of active construction sites were inspected during this reporting period? ☐ NT

1	0	0
---	---	---

 %

4. What percent of active construction sites were inspected more than once? ☐ NT

1	0	0
---	---	---

 %

5. Do all inspectors working on behalf of the MS4s contributing to this report use the NYS Construction Stormwater Inspection Manual? ☐ Yes ☒ No ☐ NT

6. Does your MS4/Coalition provide public access to Stormwater Pollution Prevention Plans (SWPPPs) of construction projects that are subject to MS4 review and approval? ☒ Yes ☐ No ☐ NT

If your MS4 is Non-Traditional, are SWPPPs of construction projects made available for public review? ☐ Yes ☐ No

If Yes, use the following page to identify location(s) where SWPPPs can be accessed.

7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

One goal is to continue the comprehensive site plan review process through various boards. Another goal is for the Code Enforcement Officer, with assistance from the Watershed Manager, to continue to conduct periodic inspections of active construction sites. The last goal is to analyze erosion and sediment control laws for equivalence to State laws with a revised goal of completing this in 2016.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City utilizes a comprehensive construction site runoff control and post construction runoff control review process and requires enhanced phosphorus treatment from new construction. The City Public Works Coordinator completes inspections of all sites that disturb more than 1 acre, with assistance from the Watershed Manager. The City has begun to review its erosion and sediment control law.

C. How many times was this observation measured or evaluated in this reporting period?

		1	0
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?
☐ Yes ☒ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will work during the next reporting period to improve their stormwater laws and to ensure their laws are equivalent to State laws. The City will improve the SWPP approval process to ensure practices are in place for local approval including reviewing 5 acre waiver requests. The City will review its inspection procedures to ensure they are equivalent to the NYS Construction Stormwater Inspection Manual. These goals have been partially completed but will be finalized in 2016.

If submitting this form as part of a joint report on behalf of a coalition leave SPDES ID blank.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

One goal is to continue to require enhanced phosphorus treatment on new development and to continue the comprehensive site plan review process. Second is to analyze post construction stormwater laws and determine if updates are needed, with a revised goal of completing this in 2016. Last is to continue completing stormwater management projects with the Canandaigua Lake Watershed Council.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City already has comprehensive construction site runoff control and post construction runoff control local laws. An analysis of laws has begun. The City continues to maintain existing stormwater practices along Main Street, Antis Street parking long and the vortex hydrodynamic units on road projects. The City is working with the Canandaigua Lake Watershed Council on the Sucker Brook Stormwater Projects. The Watershed Manager continues to inspect stormwater basins.

C. How many times was this observation measured or evaluated in this reporting period?

		1	0
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☐ Yes ☒ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will continue to review post-construction stormwater laws and ensure they are compliant with State laws, with the goal of completing this in 2016. In addition, the City will continue inspecting existing stormwater systems and will continue the comprehensive site plan review process. The City will also continue working with Town on the Sucker Brook Stormwater Projects.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

☒ On behalf of an individual MS4

☐ On behalf of a coalition

How many MS4s contributed to this report?

--	--	--

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.

7. Evaluating Progress Toward Measurable Goals MCM 6

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The goal is to continue to implement the City's Lawn and Landscape Policy (utilizing IPM) and to continue to implement the City strategy that minimizes the use of salt on streets. Another goal is to continue to implement road stabilization measures and to continue to utilize the street sweeper on all City streets on a daily basis from spring through late fall. The last goal is to continue to budget for and implement stream and wetland restoration projects throughout the City.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City has continued to utilize the Lawn and Landscape Policy. The City's salt strategy was followed throughout this winter. Streets were swept on a daily basis in spring, summer, and fall. The City has funding to complete numerous projects, including a streambank project on Sucker Brook and the Sucker Brook Stormwater Projects.

C. How many times was this observation measured or evaluated in this reporting period?

		1	0
--	--	---	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will start training for staff on good housekeeping and pollution prevention. The City will also start an inventory and complete a self-assessment of Pollutants of Concern, as listed in MCM 6 - 1. The City will promote its Lawn and Landscape Policy to local residents. The City will also continue its road salt reduction program and street sweeping program. The City will continue working with the Town and the Watershed Council on the Sucker Brook Stormwater Projects.
