

GATEWAY
Community Power

CCA and Community Solar

Two Programs – Two Opportunities

Community Choice Aggregation (CCA)

- Electricity purchase program
- Your municipality chooses default supplier
- Goals
 - Reduce electricity rate
 - Purchase 100% renewable
 - Flat rate to reduce volatility
- Program is opt-out – eligible customers are in unless they opt out
- It is easy to opt out

Community Solar

- Electricity purchase program
- Local generation – typically solar
- Goals
 - Customer savings of about 10%
 - Support local solar development
 - Generate rebate for municipality
- Participants receive on-bill credits and a second bill from solar developer (this may change)
- Program is opt-in – eligible customers are out unless they opt in (this may change)

- Customers can participate in either program, neither program or both
- Participation in both yields full benefit of each program to participant
- Both programs are compatible with budget billing

Roctricity

Carbon-free electricity for cleaner communities
